PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with practical experience in Java, React, SQL, HTML, CSS, JavaScript, Git, and GitHub. Completed a software development internship and built multiple full-stack projects demonstrating strong problem-solving, debugging, and web development skills. Quick learner with excellent teamwork, communication, and analytical abilities, seeking an opportunity to contribute to innovative software development projects.

TECHNICAL SKILLS

Programming: Java, JavaScript

Frontend: HTML5, CSS3, React

Database: SQL

Tools: Git, GitHub

Concepts: OOP, Problem Solving, Hibernate

INTERNSHIP

Software Development Intern | KodNest Technologies Bengaluru

Feb 2026 – Aug 2026

- Assisted in developing and testing web applications using Java, MySQL, HTML, CSS, JavaScript, and React.
- Performed frontend development, database integration, debugging, and software testing to ensure application quality.
- Collaborated on real-world projects, enhancing problem-solving, debugging, and full-stack development skills.

EDUCATION

Bheemanna Khandre Institute of Technology (BKIT), Bhalki
BE(CSE-AIML)

2022-2026
CGPA-8.5

PROJECTS

Task Manager

Apr 2025-jan 2026

Technologies: React.js, JavaScript, HTML5, CSS3, Git, GitHub

- Developed a responsive Task Manager web application using React.js.
- Implemented CRUD operations (Create, Read, Update, Delete) for task management.
- Used React Hooks (useState) for efficient state management.
- Designed a responsive and user-friendly interface using HTML5 and CSS3.

Voice Assistant for Desktop

Sep 2025-Dec 2025

Technologies: Java, Java Swing, Speech Recognition API, Git, GitHub

- Developed a desktop Voice Assistant using Java and Java Swing to execute voice commands and automate basic system tasks.
- Implemented speech recognition to perform operations such as opening applications and responding to user commands.
- Designed a simple, interactive user interface and managed the project using Git and GitHub.

Train Management System

Apr 2026-Aug 2026

Technologies: Java, JDBC, MySQL, HTML, CSS, JavaScript, Git, GitHub

- Developed a Train Management System to manage train details, schedules, passenger information, and ticket bookings.
- Implemented CRUD operations using Java and JDBC with MySQL for storing and retrieving train and booking data.
- Designed a simple user interface for searching trains, checking availability, and managing booking details.

CERTIFICATIONS

- Software Development Internship Completion - KodNest Technologies
- Generative AI Landscape - Infosys Springboard
